Instagram Caption Bank & Socials Progress

For Jeanelle — posting reference + current cross-platform status

NairoReel Productions · Prepared by Claude Code · 2026-08-08 · Source: Brand Identity/social-content-plan-2026-08.md, Bill's slide-by-slide notes (2026-08-08), nrr-brain platform account pages

> This report has two parts. **Part 1** is the full 28-slide caption bank for the Instagram grid, grouped the way the grid is laid out. Where a caption is fully written and ready to post, it's marked **ready**. Where we only have Bill's raw description and no finished caption yet, his words are quoted as-is, marked **Bill's description** — write the caption once the details are confirmed. Where even Bill's note doesn't give us enough to say anything useful, it's marked **not sure** — flag to Bill directly.
>
> **Part 2** is where each platform (Instagram, YouTube, Vimeo, LinkedIn, Behance, Clutch, Google Business Profile) actually stands right now, so you know what's live vs. still pending before posting.

● Ready to post ● Bill's description — needs a finished caption ● Not sure — check with Bill

Part 1 — Instagram caption bank (28 slides)

1 EKUC Camporee — 3D animated promo — Ready

CAPTION

"Battle Ready, Armed for the Fight."
That was the brief from EKUC's youth department for their Pathfinder Camporee — and instead of softening it, we built the whole animation around that intensity.
3D animated event promo, made right here in Nairobi.

2 Nile Basin — NGO documentary — Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"Nile Basin"

Not sure — need the NGO/client name, what the project was for, Brandon's role, roughly when it was shot, and whether the NGO can be named publicly before a caption can be written.

3 Sylvia's graduation + baby shower Bill's description

BILL'S DESCRIPTION (AS GIVEN)

> *"Sylvia's Graduation and I've forgotten the name of the woman — baby shower but she consented"*

Not sure — the previous draft caption for this slide assumed a family shoot / 50th birthday, which doesn't match. Need the baby-shower subject's name (or confirmation she stays unnamed) before writing the real caption.

4 David and Freshia's wedding Bill's description

BILL'S DESCRIPTION (AS GIVEN)

> *"David and Freshias Wedding"*

PREVIOUS DRAFT CAPTION (NEEDS CONFIRMING AGAINST THE ABOVE)

> Weddings move fast. You don't get a second take on any of it.
> One of the days we love shooting most, because every frame only happens once.
> Wedding photography, shot in Nairobi, Kenya.
> nairoreelproductions.com/our-work#photography

Not sure — whether this was paid client work or a favor, and whether David and Freshia can be named/credited in the caption or should stay generic like above.

5–9 Nairobi Fashion Week (reuse across all 5 slides) Ready

CAPTION

> Reading light that keeps changing, no second chances on a frame.
> This is the shoot that ended up anchoring our whole portfolio — Bill's first editorial assignment, covering runway, backstage, and the quiet moments in between at Nairobi Fashion Week.
> Editorial fashion photography, shot in Nairobi.

10 Music video shoot — group Bill's description

BILL'S DESCRIPTION (AS GIVEN)

> *"Kappy, Vunuku Tipsy Gee and Kantel Wadagliz"*

Not sure — still need the artist/song name, whether it's publicly released, and whether we can tag/credit the artists.

11 Music video shoot Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Tipsy Gee and Vunulu*"

Not sure — same open questions as slide 10 (song name / release status / credit permission).

12 Music video shoot — video vixen Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Video Vixen 😅 Kappy and Wadagliz*"

Not sure — same open questions as slide 10.

13 Music video shoot Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Kantel Wadagliz, Vixen, fame.stano*"

Not sure — same open questions as slide 10.

14 Group music vid photo Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Group Music Vid Photo*"

Not sure — same open questions as slide 10. Once the song/artist/release status is confirmed, slides 10–14 can likely share one caption per the playbook's reuse pattern.

15 Personal portraits Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Judy Lloyd Leyla Marianna*"

16 Personal portraits — family Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Grandma Mum and Grandma and Lilian*"

17 Personal portraits — models Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Models, Judy*"

18 Personal portraits Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Tracey, Michelle*"

19 Personal portraits Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Selina*"

21 Personal portraits Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Marianna*"

22 Personal portraits Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Michelle*"

24 Personal portraits Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Michelle and Tracey*"

25 Personal portraits Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Michele*"

26 Personal portraits Bill's description

BILL'S DESCRIPTION (AS GIVEN)

"*Michelle*"

Slides 15, 16, 17, 18, 19, 21, 22, 24, 25, 26 — shared posting caption Ready (names kept private)

CAPTION (REUSE ACROSS ALL 10 SLIDES ABOVE)

Some of our favourite frames never had a brief.
A handful of personal portrait sessions — friends, family, people who let us practice on them before a client ever did.

Alt text: "Portrait photography by Nairoreel Productions, Nairobi, Kenya"

> By design, none of the names above (Judy, Lloyd, Leyla, Marianna, Tracey, Michelle, Selina, grandma/mum/Lilian, etc.) go in the public caption — still pending Brandon's explicit sign-off that this is the right call for all of them. Bill's names are listed above purely so you have the context if anyone asks.

20, 23, 27 NRR team studio shoot, Nov 2025 Ready

BILL'S DESCRIPTIONS (AS GIVEN)

20th: "Nairoreel Team" · 23rd: "Nairoreel" · 27th: "Nairoreel Team Portraits"

CAPTION (REUSE ACROSS ALL 3 SLIDES)

We're usually behind the camera, not in front of it.
In November 2025 we booked a studio and pointed the lens at ourselves for once — the three of us who actually run this thing.

28 Tranzit teaser throwback (confirmed) Ready

BILL'S DESCRIPTION (AS GIVEN)

"Animation Showcase"

CAPTION — CONFIRMED THIS IS THE TRANZIT TEASER, SHOT ~2 YEARS BEFORE RELEASE

Before Tranzit was Tranzit, it was a teaser we shot two years ago.
A throwback to where the idea actually started, long before the CGI short film that's out now.

Not on the grid — dedicated Tranzit post (planned, not yet posted)

New standalone Instagram post: Tranzit video + 2 carousel stills Caption ready — post itself not live

> **Current status:** only the Tranzit *video* (Part 1) is up on Instagram so far — the carousel stills below have not been posted as their own dedicated post yet.

CAPTION

The clock is real. Everything else in this frame is fully computer-generated.
Tranzit is a short, fast-paced CGI film about the delivery of a mysterious case — the vehicle, the forest road, the fog, all built and rendered from scratch in Blender, with EmberGen handling the drift smoke.

Part 2 — Socials progress: what's live vs. still open

Snapshot as of 2026-08-08. Sourced from the platform account pages in the brain and the live handoff queue.

PLATFORM	STATUS	WHAT'S ACTUALLY DONE	WHAT'S STILL OPEN
Instagram	Bio live, grid posting not started	Bio, name field, 28-slide grid curated (108 images), caption bank now built (this report).	None of the grid slides are posted yet. Waiting on the "not sure" items above from Bill, then Jeanelle to post manually per Part 1.
YouTube	Live, 1 video up	Channel created and live (youtube.com/@NairoreelProductions). Tranzit Part 1 published — first and only video so far. Homepage schema already links to it.	Title still reads "TRANZIT" instead of the SEO-formula title — needs retitling, not re-uploading. No channel description/keywords set yet, no channel banner (no brand asset exists). KFC, Reload, EKUC, Raila Tribute, Costa Archive videos not uploaded yet (Brandon uploads the files; Cowork adds title/description/tags after — task queued: *2026-08-03-youtube-vimeo-metadata*, still pending).

Vimeo	Live, 3 videos up	Profile live and public (vimeo.com/user240606904). Bio, location, email set. 3 videos already uploaded: Raila Odinga Tribute, Reload, KFC — under generic titles.	Those 3 titles/descriptions still need editing to match the YouTube-formula versions. EKUC, Costa Archive and Tranzit are missing entirely — Brandon needs to upload the files first. Same pending task as YouTube above.
LinkedIn (Company Page)	Live, fully filled, zero posts	Page live (linkedin.com/company/nairoreel-productions), all fields filled — tagline, about, industry, size, specialties, phone, year founded.	No post history at all yet — first 5 posts already written (Tranzit, KFC, EKUC, Costa Archive, Reload), queued as *2026-08-03-linkedin-posts*, still pending. No cover/banner image. Not yet cross-linked to YouTube/Vimeo/Behance (task *2026-07-27-crosslink-linkedin*, still pending).
Behance	Live profile, zero projects	Profile live at behance.net/nairoreelproductions, custom URL claimed, headline/city/about filled, correctly linked back to the site.	Biggest gap of all the platforms — not a single project posted. All 7 project write-ups (Tranzit, KFC, Reload, EKUC, Raila Tribute, Costa Archive, Nairobi Fashion Week) already drafted, queued as *2026-08-03-behance-projects*, still pending.
Clutch	Submitted, under review	Listing created 2026-07-27, all fields filled, free tier. Clutch quotes 7–10 business days before it goes publicly visible.	No client reviews on the profile — none fabricated, would need a real review from EKUC or Costa Archive once there's a natural opening.
Google Business Profile	Not publicly visible — blocked	Signup form fully completed: category, services, description, logo, hidden address all set.	Not live at all yet — Google requires a verification video of the studio/equipment before the listing goes public. This is on Brandon to record and submit himself; nothing more Jeanelle or Cowork can do here.

Cross-linking (platforms linking to each other, not just to the website)

- Site → all platforms: **done.** Homepage schema, llms.txt and llms-full.txt all list all 6 profile URLs.
- Platform → platform (e.g. LinkedIn linking out to YouTube/Vimeo/Behance): **not done yet** — queued task, still pending.

Net effect for Jeanelle

- The only platform actually ready for new posting activity right now is **Instagram** — everything else is either waiting on Cowork to execute already-written material, or blocked on Brandon (YouTube/Vimeo video uploads, GBP verification video).
- For Instagram, start with the slides marked **Ready** in Part 1. For anything marked **Bill's description** or **Not sure**, reach out to Bill directly with the specific question noted under that slide before posting.

Prepared by Claude Code from `Brand Identity/social-content-plan-2026-08.md`, the SEO/social playbook (`nrr-brain/wiki/concepts/concept-social-seo-playbook.md`), the platform account pages in `nrr-brain/wiki/entities/`, and Bill's slide-by-slide notes relayed 2026-08-08. Nothing above is invented — where information wasn't available it's marked "not sure" rather than guessed.
